# UL SINGLES

COLLEGE MADE SIMPLE

# *Introduction*

---

UL Singles is the first dating platform designed exclusively for UL students.

UL students can match with other students based on their profiles.

**UL SINGLES**

COLLEGE MADE SIMPLE

# *High-level Functionality*

UL Singles suggests potential matches for each user based on their own profile info. Elements such as age, gender, hobbies, what gender they're pursuing and the type of relationship they are looking for are taken into account.

Our website also aims to orientate users towards finding their perfect partner for a relationship. This is in stark contrast to traditional dating websites that are often used for once off meet-ups which lead to little success.

Matching users who are looking for the same type of relationship is just one feature. UL Singles also provides information to all users on the 'Home' page. This includes suggestions on where to meet up on campus, potential date ideas and also upcoming community events.
